

3 reasons why FreeMind accelerates learning and improves exam results...

1. It induces the optimum learning state

Using relaxation and brain entrainment frequencies the FreeMind Expansion recordings enable you to induce the ideal state of mind with which to study more effectively by concentrating your focus and improving your capacity to absorb more information in a shorter amount of time.

2. It anchors knowledge deep in the memory

These recordings guide you to follow specific studying schedules that enable you to link all of the associated learnings together in your memory. This reduces the stress of studying large amounts of information and it conditions you to respond to the trigger recording which enables you to recall all of the information as and when it is required.

3. It uses performance psychology to ace exams

All of the FreeMind Expansion recordings are designed to not only boost your capacity to store and recall information, they are also designed to boost feelings of confidence and certainty. Use the trigger recording minutes before going into the exam, so that all of the learning, all of the motivation and all of the focus puts you in the ideal state to perform well.
